

### 材料 Material

大汽球 Big Ballon

白紙 White Paper

顏色紙 / 雜誌紙  
Colour Paper or Magazine Paper

鐵線 Wire

安全蠟燭 Safety Candle

小竹枝 Stick

膠水 Glue

童軍齊來做燈籠，快樂一起過中秋！

Here is a great project for the Cubs or Scouts and is a great fun for celebrating the Mid-Autumn Festival!

1

將汽球充氣，其體積自定。  
Blow up a balloon to the lantern size which you wish to create.

2

將白紙及顏色紙浸在水中 10 至 15 分鐘後撕碎  
Soak both the white and colour papers for 10-15 minutes until they become soft. Then tear them into small pieces.

小心將白紙碎厚厚的貼滿在氣球上，避免有縫隙。  
在氣球上畫上圖案，設定透光及不透光部份。乾後，將不透光部份貼滿顏色紙，以便透出透光部份的美麗圖案。  
Gently paste thick layers of white paper pieces all over the balloon and do not leave crevices. When dried, decide lantern surface where you want to illuminate. Then paste colour paper pieces on the non-illuminate part.

3

4

乾透後，小心將氣球取出。  
Carefully take out the balloon when the papers are completely dried.

5

剪去頂部，用鐵線穿起燈籠之兩端成手柄。  
Cut away the top and hook it up with a wire.

6

放入安全蠟燭便成。  
Finally, light it up with a safety candle.
